

RATES APPLICABLE TO THE ALTERNATIVE EQUITY MARKET

The Board of Directors of Bolsas y Mercados Españoles, Sistemas de Negociación, S.A. has approved the following rates for the Alternative Equity Market:

1. ADDITION

a) Securities issued by SICAVs, HFs and FHFfs

The fee applied to securities issued by SICAVs admitted to trading is calculated as follows: 0.5 per mille (with a maximum of €15,000) of the face value of the subscribed and paid-up share capital at the time of admission to trading, plus any increase relative to the amount on the last day of each calendar year, without taking into consideration any changes in the intervening period. The fee for Investment Funds shall be 0.5 per mille on the total fund assets at the time of admission. The same rate shall be applied to the market value of units issued to increase the number of fund units. This rate also covers the securities' admission to the Iberclear registry or, where appropriate, the registry services of the Barcelona, Bilbao and Valencia stock exchanges.

This rate shall not be applied to SICAVs whose shares have been admitted to trading on the Spanish stock exchange, but who decide to change the trading scheme to delist their shares and request their admission to the Alternative Equity Market. In this case they would only pay the rate on subsequent capital increases.

b) Securities issued by venture capital companies

A rate of 0.5 per mille on the total assets of the fund or the company will be applied to securities issued by venture capital companies for admission to the Market. The same rate will be applied to the market value of units or shares issued to increase the number of fund units or company capital increases.

c) Shares issued by growth companies

A fixed processing fee of €1,160 will be applied. This will be deducted from the admission rate provided that admission takes place within three months of the start of the proceedings.

A fixed rate of €6,000 plus a variable of 0.5 mille on the face value of the securities admitted will be applied to securities issued by growth companies for admission to the Market. A variable rate on the face value of the securities admitted will also be applied to securities issued in a capital increase for admission to the Market.

A provision of funds may also be required for the aforementioned concepts.

d) Securities issued by Real Estate Investment Trusts (SOCIMI)

A fixed processing fee of €1,160 will be applied.

A fixed rate of €6,000 plus a variable of 0.5 mille on the face value of the securities admitted will be applied to securities issued by SOCIMI for admission to the Market. A variable rate on the face value of the securities admitted will also be applied to securities issued in a capital increase for admission to the Market.
