Index Methodology

The IBEX indices measure the performance of securities listed on the Spanish Stock Market. The IBEX indices are Eurodenominated and calculated in realtime within the European time zone. The IBEX Growth Market® All Share Index is composed of securities listed on the BME Growth segment. It aims to give BME MTF Equity companies visibility and measure their progress in the market. It does not therefore have any specific number of components.

IBEX Growth Market® All Share is a market cap weighted index adjusted by free float. Sociedad de Bolsas also calculates the IBEX Growth Market® 15 index.
