Initial trading of Izertis, S.A. in the Spanish Stock Exchange Interconnection System

In accordance with the Additional Provision 8th of the Law 6/2023 of March 17th of the Financial Markets and Investment Services, the Sociedad de Bolsas Trading and Supervisory Committee has agreed **Izertis, S.A.** reasonably complies with the requirements for its integration in the Spanish Stock Exchange Interconnection System once the shares have been admitted to trade in at least two Stock Exchanges.

The **28.734.720 shares** that make the share capital of Izertis, S.A. will trade in the Spanish Stock Exchange Interconnection System with **ISIN code ES0105449005**, in the General Trading segment, with the code **"IZER"**, from the day of its admission in the Spanish Stock Exchange Interconnection System, which is foreseen for **July 4th**.

From this date on, trading in this stock shall be performed in accordance with the Operating Rules of the Spanish Stock Exchange Interconnection System and subjected to the Supervision contained therein.

Being aware of the circumstances surrounding the listing of Izertis, S.A., on the stock's first day of trading, the Sociedad de Bolsas Trading and Supervisory Committee shall apply the following measures contained under section 6.2.4., Circular 1/2021 of the Operating Rules of the Spanish Stock Exchange Interconnection System:

- 1.- The stock will be registered in the Stock Exchange Interconnection System at the beginning of the trading session on the day scheduled for its admission on the Stock Exchange. However, orders cannot be entered until the beginning of the opening auction.
- 2.- The opening auction shall **start at 08:30 a.m. and end at 09:00 a.m.** Though, if required, its duration could be modified for as long as the situation of the market so warrants. Its extension and conclusion must be notified sufficiently in advance.
- 3.- Take as a **reference price** for the session the closing price of the company on the 3rd July, last trading date of the shares in the trading segment BME Growth in BME MTF Equity. During the opening auction, orders that entail prices within a 20% static range of the reference price shall be allowed. The dynamic range shall be of 8%. The price resulting from this auction shall be considered to be the static price. From the next session on, the static range shall be 10%.
- 4.- According to Commission Delegated Regulation 2017/588 of July 14th 2016, the tick size will be established according to the **average daily number of transactions (ADNT)** which at the moment is in the liquidity band of **10 to 80 daily transactions**.
- 5.- According to Commission Delegated Regulation 2017/587 of July 14th 2016, the minimum turnover for the block system (LIS-Pre) is maintained at **60.000 euros**.
