

BME Fixed Income Market Connectivity

As the leading venue for fixed income trading in Spain, BME offers a range of connectivity solutions enabling market participants to access **AIAF**, **MARF**, and **SENAF**, tailored to their operational and technological requirements.

SEND Trading Terminal

The SEND Trading Terminal provides a user-friendly interface for the manual entry and management of orders, while offering real-time access to market information. It is the recommended solution for participants seeking direct access to **AIAF** and **MARF** through a graphical trading interface. Also available for **SENAF**.

External Applications

Participants may connect through proprietary applications or solutions provided by certified third-party vendors. Proprietary systems must successfully complete the relevant certification process to ensure operational integrity and the proper handling of order flows.

API / SAPI Connectivity

SENAF supports connectivity via **SAPI (System Application Programming Interface)**, enabling direct integration between participants' systems and BME's trading infrastructure. SAPI connections are available with different messaging capacity levels, allowing participants to select the configuration best suited to their trading activity and operational needs.

Technical Capabilities

The infrastructure supports:

- Trading terminals.
- API/SAPI connectivity (**SENAF**) and FIX connectivity (**SEND**).
- Scalable messaging capacities.
- Drop Copy services for back-office integration.
- Resilient and redundant connectivity configurations.

Low-Latency Connectivity

Participants can enhance their connectivity through BME's hosting and network solutions, including **Proximity Services** and the **London Hub**, helping to reduce latency and optimize trading performance.

Market Access

BME provides a range of resilient connectivity options and access services, including primary and backup configurations, designed to ensure business continuity and high availability.

Need to Connect to Our Markets?

Our Market Access team will support you throughout the onboarding and technical certification process, ensuring a fast, secure, and seamless connection to BME's fixed income markets.
