

SIX Co-Location Service Fees (MD6)

2027

Co-location services for BME are offered in the Equinix data center MD6 and managed by BME.

Order Forms and contracts related to the provision of these services are required to be signed with BME.

Clients will be invoiced directly by BME for the provision of the below services.

1. Housing and Power

| kVA per cabinet | Cabinet One-off Installation Fee (€) | Housing Fee p.m. (€) | Power Fee p.m. (€) |
|--------------------------|--------------------------------------|----------------------|--------------------|
| 5.0 | 5.100 | 3.025,00 | 1.541,00 |
| 5.5 | 5.100 | 3.330,00 | 1.695,10 |
| 6.0 | 5.100 | 3.625,00 | 1.849,20 |
| 6.5 | 5.100 | 3.920,00 | 2.003,30 |
| 7.0 | 5.100 | 4.240,00 | 2.157,40 |
| 7.5 | 5.100 | 4.535,00 | 2.311,50 |
| 8.0 | 5.100 | 4.830,00 | 2.465,60 |
| Hosted user | | 1.100 | |
| PNU ¹ Cabinet | | 1.210 | |

¹ Power not used

BME will provide cabinets and power in a best-effort basis, taking into consideration the available space and power in the designated area of the data center.

2. Connection to the Exchange

The monthly access fee for clients with Co-Location Access (not redundant) depends on the number of subscribed Cross Connections.

| Number of connections | Access fee Equinix p.m. (€) | Access fee MEFF p.m. (€) |
|-----------------------|-----------------------------|--------------------------|
| 1-2 | 1.750 | 875 |
| 3-4 | 1.900 | 950 |
| 5-6 | 2.100 | 1.050 |
| 7-8 | 2.350 | 1.175 |
| 9-10 | 2.650 | 1.325 |
| >10 | 3.000 | 1.500 |

BME reserves the right to limit the number of ports per client.

3. Direct connection via Proximity Service

The monthly access fee for clients with direct connections via Proximity Service to the Exchange network (SCAP) is determined by the bandwidth chosen. It is levied per access and port (not redundant). The applicable fees are given in the following table:

| Bandwidth | Access fee p.m. (€) |
|----------------|---------------------|
| Up to 50 Mbps | 2.200 |
| Up to 100 Mbps | 2.860 |
| Up to 200 Mbps | 4.070 |
| Up to 500 Mbps | 5.170 |

Access to Membertest environment from the Co-location cabinets must be performed via the Proximity connection.

4. Cross-connects

The installation and monthly fee per cross-connect (non-redundant) is detailed below.

| Type of Cross-connect | Cross-connect Installation One-off Fee (€) | Cross-connect Fee p.m. (€) |
|--|---|----------------------------|
| Within BME Co-lo Area with same client | 550,00 ¹ | - |
| Outside BME Co-lo Area with same client | 550,00 | 160,00 |
| Inside BME Co-lo Area with different client ² | 550,00 | 160,00 |
| Outside BME Co-lo Area with different client | 550,00 | 160,00 |
| Proximity service | 550,00 | 160,00 |
| Connection to BME Matcher | 1.100,00 | 220,00 |

¹If installation of this cross-connect is performed by the client, the one-off fee would not apply.

²The cross-connect fee will be charged to the A-side

5. Smart Hands

Smart Hands tasks are charged per hour (p.h.), as indicated in the table below.

| Type of Smart Hands | Fee (€) |
|---------------------------------|--------------------------|
| Standard | 170.00 p.h. |
| Scheduled | 170.00 p.h. |
| Expedite / Trouble ¹ | 350.00 |
| Packaging material disposal | Standard Smart Hands fee |

¹Expedite / Trouble fee is charged on top of the Standard fee.

The performance of Smart Hands tasks depends on the availability of the data center operations team. Per hour fees might be fractioned.

The definitions of each Smart Hands type are included in the Equinix website.

6. Precision Time Protocol (PTP)

PTP (Precision Time Protocol) is a highly accurate protocol to synchronize clocks of computer network equipment. BME may provide PTP signal synchronization via existing Equinix trading connections or through a dedicated cross-connect in Co-Location on request. PTP is not available via SCAP and not available in Membertest.

| Type of Service | Installation Fee | Fee p.m. (€) |
|---|------------------|--------------|
| PTP through existing trading connection | N/A | 325 |
| PTP through dedicated connection | 1.100,00 | 1.240,00 |

7. Antennas

The installation and monthly fee per antenna element is detailed below.

| Type of Service | Installation Fee | Fee p.m. (€) ¹ |
|--------------------|------------------|---------------------------|
| GPS | On demand | 1.240,00 |
| Line of Sight | On demand | 3.950,00 |
| MMF cross-connect | On demand | 325,00 |
| COAX cross-connect | On demand | 160,00 |

¹These fees may vary depending on antenna type and rooftop space required, according to Equinix policies and charges.

The antenna assets, included but not limited to, a compatible antenna, cable, and receptor, will be provided by the client.

Equinix's terms and availability for the Antennas services will apply.

8. Ancillary services

Storage and other ancillary services will be quoted on demand.

Equinix's terms and availability for those services will apply. Applicable fees will be based on Equinix charges.
